Release Date: 27/09/2012

Format: 24Bit WAV

Engineer: [Oscar Pablos](#)
[‘Ojah’](#)

Release Info:

[Spf Samplers](#) return with a sublime new production-tool for Native Instruments best loved synth Massive.

Massive Dubstep Presets will truly bring the walls crumbling down. The pack really gives you the producer everything you need to make a monster of a track. So you better strap in because these presets will have the whole scene moving to your groove.

Inspiration has been taken from all aspect of the dubstep scene including artist such as Nero, Scuba, Royal T, Noisia, Rudimental and many more.

The pack includes 200+ Native Instrument Massive presets and a 100 midi files. The pack is organized into folders which included, 26 Arp n Seq, 51 Bass, 26 FX, 26 Keys, 26 Lead, 26 Pad and 26 Synths. All the presets use macros to help you quickly modify and manipulate the sound to your liking.

Note that the drums featured in the demo are not in the pack, this pack contains only Massive presets. All the drums included in the demo are from [Rough and Raw Dubstep](#).

You will need version 1.3 or above of Native Instruments Massive for this preset pack to work.
